
[[Welcome](#) | [What's New?](#) | [Installation](#) | [Technical Support](#)]
[[Overview of Tools on CD](#) | [Index of Tools on CD](#) | [Samples](#)]

There haven't been many changes to the Graphic Artist Tools since the previous CD Release, other than the following:

- **NEW Sound tools directory.** The sound tools area has been moved out of PSXGraph and into it's own directory [\PSXSound](#). It has also been greatly expanded. Many new tools and utilities are available for both Mac and PC Formats.
- **Lightwave Updates.** The plug-ins for the Lightwave software have been updated and expanded to more fully support the HMD format.
- Read the Overview and the Index. Look for the "**NEW**" label in the following :
 - Read [\doc\cat.pdf](#) for an overview of all of the files on the CD (this was formerly known as the "CATagories" document).
 - Read [\doc\content.pdf](#) for an index of all the tools sorted by name.

In addition, tools that were updated (relative to the previous CD release) are marked by the "**UPDATED**" label. Obsolete tools are marked by the "**DELETED**" label.
