ufo: UFO and foot born

<description>

This data shows animation with bezier curve interpolation.
Please use anim/animview in HMD sample program directory to run.

The following steps create this data:

1. An intermediate HMD file is generated based on LightWave 3D's sample data "footborn.lwo" and "adamskiu.lwo".
2. "xhmd" is used to dis-assemble the HMD file created in step 1.
3. Text editor to add animation edits the result of step 2 primitive data.
4. "labp" command created HMD files from *.lab files created in step 3.
