

Date: 7/10/98

This directory contains compressed files of previously released libraries 3.5, 3.6, 3.7, 4.0, 4.1, and 4.3, as well as patches that were released in between CD releases.

Each directory contains the following:

1. A "changeXX.txt" document.
2. A MacOS directory that contains an HQX (Stuff-It archive) of the CodeWarrior version of the library. This should be extracted on the Macintosh. Use Stuff-It to open the file.
3. An x86 directory that contains the ZIP archive of the CodeWarrior version of the library. This should be extracted on a PC using WinZip or PKUnzip.
