

FILE:  
memcard.zip

DATE:  
July 29, 1997

CONTENTS:  
This directory contains the Memory Card Manager 1.5 program,  
"psx.exe", which should be used to test your memory cards  
according to the conditions of the Technical Requirements Checklist.

INSTRUCTIONS:  
Create a gold disk, with "psx.exe" at the root.  
For more information about burning a debug station CD-ROM,  
refer to the Technical Reference CD, in the document "\faq\cd4",  
section 1.5.3.
