

\$PSDocId: Document Release 1.0 for Run-time Library Release 4.3\$
DTL-H2700 DECI Firmware Kit

Rewrites Firmware

ROM image is written in the DTL-H2700

Syntax: flash <I/O address>

The <I/O address> specifies the I/O address set in the DTL-H2700.

Example:

```
DOS> cd \deci\flash27
DOS> flash 1340
```

Note:

- When operation is abnormal and the DOS prompt cannot be returned to, press F10 F2.
