

This is a general Peripheral tester. and shows the use of

- 1, The Standard Controller.
- 2, The Mouse.
- 3, The NegCon.
- 4, The Analog JoyStick.
- 5, The New Analog Controller.
- 6, The Multi Tap.

Please Note that the MultiTap only gives the buffer read outs

To run the code correctly just type runit.bat this will cause some pqbloads of the tims.
