

November 1997.

Read the document \README.TXT to learn how to install the DOS versions of the compiler.

The contents of this CD are comprehensively discussed in the HTML document "readme.htm" in the root directory of the Programmer Tools CD. You should point your HTML 3.0 compatible Web browser at the document on the CD. Because the hyperlinks refer to documents on the CD, make sure the CD is in the drive.

You can download the latest Web browsers at www.netscape.com (for the Netscape Navigator) and at www.microsoft.com (for the Internet Explorer).

If you do not have access to the Web, pdf versions of these documents are available in the directory "doc" on the CD. Read the "readme.txt" there for more information on its contents.

Adobe Acrobat, which can read pdf files, is available on the Technical Reference CD.
