

\$PSDocId: Document Release 1.0 for Run-time Library Release 4.3\$
DTL-H2500 SDevTC Firmware Kit

The h25drv files are being kept on this CD for backwards compatibility and diagnostic purposes. These files are not the most recent versions and are not recommended for use. For the most current flash utilities please refer to the \deci or \psn\bin directories.

Rewrites Firmware

ROM image is written in the DTL-H2500

Syntax: flash

Example:

```
DOS> cd \psx\bin\dtlh2500\h25drv
